Character Cards

Genre: Realistic Fiction: A story that is not true, but that could happen to real people in our real world.

Book: _____

Author: _____

Due Date: _____

Directions:

Think about trading cards that you've seen or collected. Usually there is a photo or drawing on the front as well as the name of the athlete or star. The back of a trading card gives information about the person.

1. Using the paper provided to you, make a set of at least four trading cards based on characters in your book. See me if you need more paper.

2. On the front, draw an illustration of your character. Be sure to include the name of the character below the illustration. Your drawing should take up most of the space on the front of the card. You can show your character doing something that occurred in the book.

3. On the back, include the following information using the template below. Skip a line after each section.
